(60) 3 9212 4899

COURSE OVERVIEW

This 3-day course aims to provide a practical approach to implement Enterprise Risk Management (ERM) and certify learners to become ISO 31000 competent in ERM.

Learners will be awarded the Certified Enterprise Risk Analyst (CERA) title by RIMAS to enhance their career prospects and recognition, and progress to Certified Enterprise Risk Manager (CERM) and Professional Enterprise Risk Manager (PERM) based on their ERM experience.

New or existing ERM professionals may take opportunity to learn, review or exchange practices using case studies of recent events during the interactive course sessions.

COURSE OBJECTIVES

COURSE OUTLINE

- Establish organization contexts
- Develop the risk management policy through consultation with relevant stakeholders
- Review risk points and set target risks for the organization in consultation with relevant stakeholders
- Identify risk events, analyze and evaluate risks in organization as part of the risk management process
- Design a risks management framework and key risk management process
- Develop communication plan to discuss risk management framework and process to employees

Learners will receive

- ERM Certification from RIMAS
- E-Certificate of Attendance issued by BCP Asia

Fees

	Before SST	After SST
Course Fee	RM 4,900	RM 5,292
